

**MADE IN
GERMANY**

Electrical food slicer amido³ selected design

Details

- full metal construction, inclined
- silver metallic
- serrated circular blade, 17 cm Ø
- circular blade cover
- slice thickness adjustable up to approx. 23 mm
- safety switch for intermittent and continuous operation
- easy-going metal carriage – broad-surfaced and detachable
- carriage way approx. 24 cm
- food tray
- cable compartment
- warranty: 2 years*
- product made in Germany

Technical features

- 230 V, 65 Watt eco-motor, duty cycle 5 minutes
- VDE/GS, protection class 2, CE
- width 30.0 cm height 24.5 cm depth 39.0 cm
- weight: 4.4 kg

Item-No. / GTIN

558.021 / 40 04822 55821 9

Electrical food slicer amido³ captivating design and practical functions

With its elegant silver and black look and its semi-professional form, the full metal food slicer amido³ is a real eye-catcher in any kitchen. Alongside its exceptional appearance, it also captivates with its sophisticated technical functions. The 25-degree-inclination of the food holding plate offers an optimal and comfortable slicing position so that fresh bread, succulent ham or fresh vegetables can be sliced evenly without much effort.

The easy-going metal carriage allows a high level of user comfort while slicing. In addition, there is almost no limit to what can be sliced thanks to its broad-surfaced metal carriage. Even cleaning afterwards is no problem – the carriage can be easily unlocked and detached for this purpose.

With the food slicer amido³, it's easy to slice and prepare foods into even slices since the slicing thickness can be adjusted precisely from wafer-thin up to approx. 23 mm. The serrated circular blade, made from stainless steel, ensures the perfect "slice", achieving even better slicing results protected by the circular blade cover. The circular blade cover also increases safety while slicing. The food slicer can be used in intermittent and continuous operation as needed.

The amido³ is driven by a 65 W eco motor which is 20 % more economical but nevertheless 50 % more powerful than the previous model.

High-quality materials and a perfect finish guarantee a long life span for the contura³ – an ideal device for anyone who values classic design as well as "made in Germany" technology.

A smooth ham- and sausage circular blade is available for every ritter food slicer.
